

"If you are looking for a great immigration lawyer - please, look no further! Mr. Bellissimo and his team are truly amazing. Not only they are extremely knowledgeable and experienced in immigration field - they are super attentive and dedicated and will treat your case/problem as their own. They are always available via email or phone, answers all the questions in details, and during meetings - they are always prepared and will spend extra time with you. They will not just collect your money and forget about your case - they will be in touch, guiding you thru the whole process until full success achieved. We are very glad that we were able to find Mr. Bellissimo as our lawyer to help my nephew who has US Green Card and passed all the Canadian dental exams which are required to become a licensed dentist to practice in Ontario, and had his LMIA (Labor Market Impact Analysis) approved but his work permit visa was refused by the Canadian Immigration Consulate General.

We tried several other lawyers before we found Mr. Bellissimo, but they were all bunch of crooks who took our money without doing anything or even returning our calls/emails properly. In conclusion, Mr. Bellissimo and his team especially Justin Toh and Michelle Boeriu did the most diligent, precise, well thought out and fantastic work that one could imagine and got my nephew's work permit visa approved within a period of less than two months, I highly recommend you to use Mr. Bellissimo services if you need help in your immigration issues."
